Honest Education President & CEO Greetings!

Hello, Filipino students who are thinking of immigrating to Canada after studying abroad. This is Terry Kim, who has been the President & CEO of Honest Education for the past 17 years.

I also studied at a Canadian public institution and immigrated to Canada. I am currently living my life as an immigrant with my family. Therefore, rather than simply disseminating information and completing school procedures, I share my and our staff's experiences with you and help you achieve your goals. Although I am Korean, I have a deep connection with Filipinos in Canada.

When I first went to Canada, the homestay host I stayed with was from the Philippines, and the last homestay mom I stayed with in Canada also immigrated to Canada from the Philippines. I am still in contact with my last homestay mom, even though it has been over 20 years.

The Philippines seems to have many similarities with Korea. This includes deep ties with family and relatives, and warm hospitality for others.

Because of these factors, even though I am not Filipino, I think I can easily approach Filipino students.

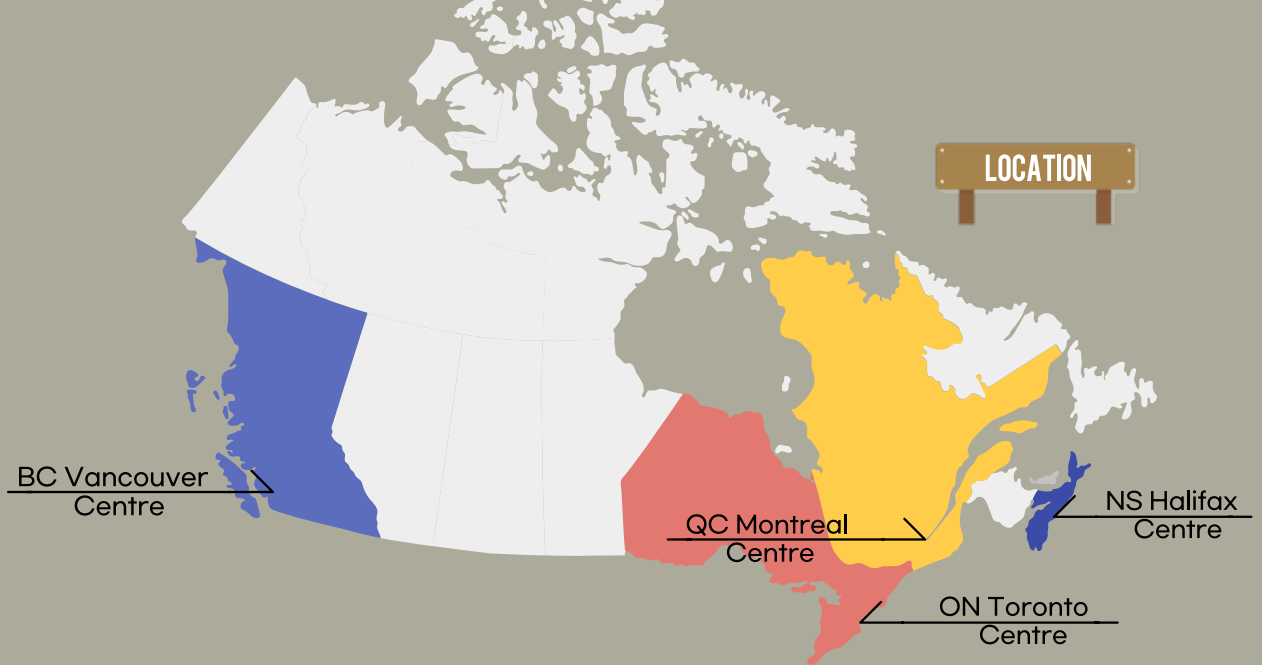

The age groups of students studying abroad in Canada are also similar. Just as there are many students who go on to college in Canada after graduating from college in Korea, the same is true in the Philippines. Based on our 17 years of experience and know-how in operating study abroad agency, we promise to provide honest consultation and procedures, as the name of the study abroad center suggests, and to sympathize with your situation and provide as much help as possible in Canada.

“A professional with a warm heart!” Please prepare for your trip to Canada through Honest Education.

Well, I hope to see you all in Canada.

Best regards,
Terry Kim
